

Missouri 2006 EQIP Conservation Practices and Financial Assistance

Conservation practices eligible for EQIP financial assistance are listed below. Conservation practices standards are located in the Missouri Field Office Technical Guide (eFOTG), available at <http://www.nrcs.usda.gov/technical/efotg/>. **Note:** Cost share for some practices is only authorized when used in conjunction with, &/or as a component of, another EQIP cost-shared practice.

1/	Financial assistance limits of \$15,000 cost share for NLRF or BF or \$21,000 for a LRF apply to those EQIP offers where the applicant does not directly control livestock production. Requests in which the applicant directly controls the production of waste/litter are not subject to these financial assistance limits.									
2/	\$500 for the first 20 acres of forest, then \$15 for each additional acre of forest.									
3/	Cost share is 50% except specific practices identified for flat rate cost share in the Program Policies.
